Mr. Cerno,

As mentioned in my phone call to you on Wednesday, EPA is developing a history of the Jackpile-Paguate mine. We are aware of a settlement document or agreement document between the Laguna Pueblo and possibly the mining company (Anaconda) and/or BIA or BLM. However we cannot locate this settlement. As a potential signatory to the document, I believe Laguna Pueblo may have a copy of it in their records, and I would like to request a copy.

The Record of Decision on the reclamation project was signed on Dec 5, 1986. The Environmental Impact Statement is from Oct 1986. My best guess is that the document we are looking for would have been signed sometime during the second half of 1986 or early 1987, but the exact date is unknown.

The EIS is quite large, but I have attached the ROD in an effort to help with the search.

I have cc'd Stephen Capuyan on this email, who I am helping develop the background of the Site. Either of us can respond to any questions you or those involved with records management may have.

Thank you again,
Kevin
